**A. Ambulance Service Utility Fee**

Fire Chief Mason explained that in 2018, the City began evaluating alternatives in regards to ensuring ambulance service to the citizens of Grandview through a financial agreement with a local ambulance provider. The Council chose to partner with the City of Sunnyside for the service. An Interlocal Agreement (ILA) was finalized with the City of Sunnyside in July of 2019 and the Sunnyside Fire Department started providing ambulance service in October of 2019. The ILA showed the 1<sup>st</sup> year total cost to provide the service as \$368,439; however, the City's share was \$163,439. The ILA showed the 2<sup>nd</sup> year projected total cost to provide the service as \$392,562, with the City's share projected to be \$187,562. The City was currently funding this service from the existing EMS budget. The EMS funding source would be completely exhausted by the end of 2020; therefore, the City would need to establish a new alternative source for this revenue in order to continue to fund the service. He summarized the cost of providing the ambulance service by the City, the cost to continue to partner with the Sunnyside Fire Department, a comparison of the two, a potential ambulance utility revenue source and his recommendation, as follows:

**The Cost to Own/Operate a City Owned Ambulance Service**

- **2<sup>nd</sup> YEAR** - \$187,600 (SSFD) Versus \$951,300 (Ownership/Annual Operating Costs)

**Revenue/Ambulance Utility Fee**

1. Identify number of utility accounts.
2. Implement method for accessing commercial/industrial/government utility accounts.
3. Establish a monthly rate to be collected.
4. Identify ways to educate the citizens.
5. Council approve and enact the Ambulance Utility Fee. (For Example: 3,500 utility accounts (estimated) at \$10 per month would generate \$420,000 per year.)
6. If we continue with Sunnyside at \$187,000 per year, the City would have \$233,000 per year to help support this program and/or put towards purchasing own equipment.

**Recommendation**

He recommended Council enact an ambulance utility fee that would be sufficient to cover the estimated \$400,000 cost of providing the service annually. To do so, the City would need to incorporate an Ambulance Utility Chapter into the Grandview Municipal Code and establish how many utility accounts the City has so that a rate could be set. In addition, it would be beneficial for the Council to establish a financial threshold amount in regards to the contract amount that the City pays Sunnyside Fire Department. An annual contracted payment amount that would trigger discussions for the City to start its own service. As an example, if the City was paying Sunnyside \$475,000 per year, the City would look at starting its own service. In the interim, the City could use the money not used to pay the contract annually to build a reserve, offset other

associated costs and purchase equipment to lessen the impact of starting own service.

**Maintain Current Ambulance/Fire Department Operations (Option A)**

- Manned ambulance in town up to 12 hours per day
- Ambulance responds from Sunnyside otherwise
- A minimum of 1 Grandview Fire Department responder available at any given time to respond
- Typically 3 Volunteers available to respond from home to a call from 10 pm to 6 am per day

- Annual cost to provide/maintain current funded department categories (Fire Admin, Fire Supp, EMS - \$501,680)
- Add additional funding to support Sunnyside Ambulance contract - \$187,600 / \$392,600

**24-Hour In Town Ambulance Service w/Volunteer & Residency Living Quarters (Option B)**

- A minimum of 3 Grandview Fire Department responders available at any given time to respond
- Allows the City to increase the area the City could attract personnel from (not required to live within City limits or immediate area)
- Anticipated average ambulance response time 6:30

Old Inland Empire (OIE) Highway Improvements – City Administrator Arteaga provided an update on the OIE Improvement Project. The project was currently under design which was funded by WSDOT through an STP Grant. The project had been in the works for almost ten years. The project was required to be under construction by 2023 or the City could be in violation of the STP Grant requirements. STP funds were administered by the Yakima Valley Conference of Governments (YVCOG). YVCOG was notified by at least three other cities in Yakima County that they did not plan to obligate their projects which would leave approximately \$3 million that either would need to be re-obligated to another city in Yakima County or returned to WSDOT which would then redistribute the funds to another county. He requested Council consider obligating the OIE project in 2021 which would require the City to be under construction in 2022. The project was a \$2 million project which would require the City to provide approximately \$20,000 matching

funds in 2021 and approximately \$300,000 matching funds in 2022. A meeting was scheduled for September 10, 2020 with the RTPO to discuss project funding and obligation. Following the meeting, he would have more information to discuss with Council.
